Welcome to the Glider Rodeo Hackweek

September 14 - 18, 2026 (Virtual)

Shannon Rankin
Southwest Fisheries Science Center
NOAA Fisheries

Meet Your Hosts

Shannon Rankin
NOAA Fisheries
San Diego, CA

Selene Fregosi
NOAA Fisheries,
Oregon State University

Kourtney Burger
NOAA Fisheries
San Diego, CA

What is the Glider Rodeo Hackweek?

- Glider Rodeo Dataset
- Participant Led Projects
- Create Some Magic
- Do it Together!

[Artwork by Allison Horst](#)

Why a Hackweek?

- **Learning:** tutorials and hands-on peer-learning experiences
- **Creativity:** diverse groups bring greater creativity
- **Open Science:** share prototypes for others to build on
- **Build Community:** build a community of practice!

How to Participate:

- Strive for Curiosity over Perfection
- Get Creative/weird and have fun!
- Support each other across tools & skill levels (be respectful!)
- This week is a starting point!

Code of Conduct

Expected Behavior

All participants are to...

- Be treated with respect and consideration, valuing diversity of opinions
- Be considerate, respectful, and collaborative
- Communicate openly with respect for others, curiosity over critique
- Avoid personal attacks directed toward other participants
- Alert a host if you notice a dangerous situation or someone in distress

Unacceptable Behavior

- Zero Tolerance: Harassment, intimidation, or discrimination of any form
- Examples of unacceptable behavior include, but are not limited to, verbal comments related to gender, sexual orientation, disability, physical appearance, body size, race, religion, national origin, etc.

“Collaboration is the most compelling reason to manage a project with Git and GitHub. My definition of collaboration includes hands-on participation by multiple people, including your past and future self, as well as an asymmetric model, in which some people are active makers and others only read or review.”

-JENNY BRYAN

When working with GitHub, we can navigate with more obvious, safe, streamlined routes that let us focus on the science-y things we want to do...

...but working without GitHub can be disorienting, with too much time spent sifting through past work to figure out next steps forward.

Git Skills

1. Make Repo (done!)
2. Clone Repo
3. Make a Change
4. Commit
5. Push to Github

We'll Do this Together: Project Teams & Hackathon Team

Shannon, Selene, and Kourtney are here to support you!

Tools:

Slack - Communication

- Each project gets a # channel
- # data (for larger discussions/Q&A re: Data)
- # help-desk (for technical & other help)
- # general - for all else!!

JupyterHub - *Working Environment*

- Data
- R, Python
- Link to Github

Github

- [hackathon-shared-repo](#)
- [GliderRodeo](#)

Google Drive

- Participant Folder
- Project Folders

Tutorial - (Today at 1pm!)

Resources - *On our Website*

- Open Source Languages: R, Python
- Quarto (can accommodate both ++)
- Supported in JupyterHub!
- Be open to learning the language you don't know!

Schedule

Monday (Sep 14)	Tuesday (Sep 15)	Wednesday (Sep 16)	Thursday (Sep 17)	Friday (Sep 18)
Welcome, Introductions, Housekeeping	Rose, Bud, Thorn	Rose, Bud, Thorn	Rose, Bud, Thorn

Learning!

Mid-Day Learning sessions for all

- **Monday:** Glider Rodeo Hackathon
- **Tuesday:** Environmental Data
- **Wednesday:** Noise!
- **Thursday:** TBD (or free time?!?)

Monday (Sep 14)	Tuesday (Sep 15)	Wednesday (Sep 16)	Thursday (Sep 17)
Welcome, Introductions, Housekeeping	 Rose,  Bud, Thorn 	 Rose,  Bud, Thorn 	 Rose,  Bud, Thorn

Project Breakout Rooms			

Friday Presentations:

- Time (TBD)
- Introduce your Science Question!
- Introduce your team
- Overview, Methods, Results
- Challenges Encountered
- Future Improvements
- *Focus on what you learned, not just your results!*

Friday (Sep 18)

Project Breakout Rooms
(Upon Request)

Break

Project Presentations

HackWeek WrapUp

Plan for the TODAY

- Welcome 1
 - Project Pitches & Brainstorms 1
 - Project Breakout Rooms 1
- Science Lectures & Tutorials
- Welcome 2
 - Project Pitches & Brainstorms 2
 - Project Breakout Rooms 2

[Link to Schedule](#)

Project Pitch & Brainstorming: What to Expect

Project Pitch & Brainstorming (1.5 hours)

- Project Pitch by Leader (2 min)
- Open Q&A, discussion by group (15 min)

Project Breakout Rooms (1 hour)

- Self-Join a group
 - Group size (3-7)
 - Realistic Commitment, Skills, Tasks
- Tasks → Team Member
 - Project Lead
 - Programmer
 - Documentation
 - Prepare Presentation
 - Research? Problem Solving? Other?

Let's Get Started!
